GOV. GLENN TO READ MESSAGE

Thinks That It Will Add to Im pressiveness to Appear Before Assembly.

GROWTH

Tax Values of All Property in North Carolina Amounts to \$489,799,456.

[Special to The Times-Dispatch.]

RALFIGH, N. C., January S.—Governor Glenn says he is seriously considering the question of delivering his blennial message to the General Assembly Thursday in person, arranging a joint session of the Senate and House, so that he can address both bodies at once. His reason for this is that the mechanical reading of the message in his opinion oftentimes detracts from the effectiveness of the message, and members in many instances are inclined to give only indifferent and listless attention. It is settled that the Governor will request the Assembly to hold the joint session so that he can read his own message, and it is a pretty safe prediction that the request will be granted. In that event he will be the first Governor of North Carolina to read his own message to a Legislature, although George Washington and some others of the early Presidents did deliver their messages to Congress in person.

NEGRO SHOOTS NEGRO: TROUBLE OVER WOMAN

WILSON, 'N. 'C., January 8.—Bruce Brown died last, night from pistol shot wounds fired by Jesse Turfey, another negro, yesterday afternoon, in this city. Turfey and other negroes were talking when Brown drove up in a wagon and stopped to pick up some hay that fell off. Brown remarked he had been shot six times. Turfey said he had not been shot in the right lace. Brown asked him if he wanted to try it. Tur-fey said, "I ain't scared," pulled his gun and fired three times, two balls taking effect, one entering his abdomen. Tur-

The sentiment among the gathering was that it was high time for the farmers to come together and decide upon some mutual plan whereby they could sell their tobacco and other products at a reasonable price that would enable them to live better without having to work their wives and children in the fields from early morning to late at night to make a bare and scanty existence.

Argues for Storage.

President H. O. Kerns, of Sutherlin, the State president, presided, and urged the farmers to store their tobacco away

A large quantity of tobacco is now stored away in the warehouse, and more was pledged to-day. The method of fighting the trust will be continued throughout the year. At the session to-night the matter of establishing a bank at Danville to be operated by the farmers themselves, was discussed.

MAIL-WAGON DRIVER NOW UNDER ARREST

Is Charged With Robbing Mailbag, Which Was Found in Colored Woman's Yard.

[Special to The Times-Dispatch.]
NORFOLK, VA., January 8.—Henry Stewart, a "sub" mail-wagon driver, was arrested here this afternoon, charged with having stolen and robbed a mail pouch which was entrusted to him. Th pouch was found in the backyard of a colored woman's house. It had ripped open. All letters in it were opened and presumably everything of up his booty it cannot be ascertained what he may have secured until com plaints have been received from consignees of the mail. The pouch checked to Portsmouth, and had come through from Columbus, O. It is probable that other pouches, yet undiscovered, were also stolen. A special agent from the Post-office Department will be here to-morrow from Washington.

ATARRH BLOOD DISEASED AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and

JEWELER NOW IN NEW YORK

Great Value of Exports Through Newport News Port During the Past Year.

NEWPORT NEWS, VA., January S.—
There have been no developments to-day in the alleged robbery case of Arritt & Company, jawelers. Since it became known yesterday that Arritt claims to have been robbed of \$2,500 in cash and \$4,000 worth of diamonds on Christmas night, the affair has been the topic for discussion all over the city, and the return of the jeweler, who is supposed to reach the city to-morrow, is awaited with no little interest.

It is learned that although Arritt ex-

reach the city to-morrow, is awaited with no little interest.

It is learned that although Arritt explains the presence of such a large amount of money in his safe by saying that as Christmas was a holiday he had the receipts for both Monday and Tuesday to carry over, he had practically nothing to his credit in any of the banks, and, therefore, could not have been doing a great deal of banking during the entire week preceding the holidays.

The fact that the police department knew nothing of the alleged robbery until yesterday, when Chief Reynolds was told the story by W. B. Colonna, counsel for certain creditors of the defunct firm, is causing all sorts of comment. Another unique feature of the case is the fact that whoever rifled the safe took the trouble to sort out a number of unusually fine brilliants that were in with the disamonds. It is said that only an expert could tell these brilliants from the real diamonds, yet the man who entered the behind.

"In the record of the said testimony the Commissioner of Hospitals, whose duties require him to visit the various State institutions and to familiarize himself with their management, and who is especially well qualified to speak of the institution over which your petitioner prosides; for the reason that said commissioner resides in the town wherein it is situated, testified that your complainant had been diligent, industrious and attentive to his duties as a physician, and was ag exceptionally good executive officer. The members of the special board of directors of said institution, who are charged with its local management, and who are also particularly well qualified to speak, testified to the same effect, although one of said members, after having given said testimony, voted not only for your complainant's removal, but also for his suspension." The latter part of this clause is especially interesting, and will probably be made use of by Dr. Foster before the board.

Man Charged With Stealing Gold Watch Found by Chief Ragland.

yon, a well known young man of this city, who is employed by the National Biscuit Company, was arrested to-day by Chief of Police Ragland on the charge of stealing money from E. A. Abornathy, of Brunswick county. Abernathy reported to Captain Ragland last night that he had been robbed of his pocketbook, containing \$200 in money and a negotiable note for \$33, and stated that he had been with Lyon. The latter had an interview with the chief this morning, and denied all knowledge of the missing property, soon after which Abernathy reported that Lyon had refunded \$121.50 of the money on his promise to let the matter drop, whereupon Lyon was at once agreeted. His story is that Abernathy gave him the money to keep; that he lied when he denied knowledge of it, and threw away the pocketbook and tore up the negotiable note.
